# Road map to achieving SDG Target 12.3 (2017 Assessment)

		2016–2018	2019–2021
TARGET	GOVERNMENTS	Countries with <b>40%</b> of the global population have set specific FLW <sup>a</sup> reduction targets aligned with Target 12.3.	Countries with <b>&gt;95%</b> of the global population have set specific FLW reduction targets aligned with Target 12.3.
	COMPANIES	<p><b>60%</b> of the world's 50 largest food companies by revenue (spanning manufacturing, production, processing, retail, and food service sectors) have set specific FLW reduction targets aligned with Target 12.3.</p> <p>Among those setting targets, <b>half</b> are working with their suppliers to set their own targets.</p>	<p><b>&gt;95%</b> of the world's 50 largest food companies have set specific FLW reduction targets aligned with Target 12.3.</p> <p>Among those setting targets, <b>all</b> are working with their suppliers to set their own targets.</p>
MEASURE	GOVERNMENTS	Countries with <b>20%</b> of the global population have quantified base year FLW and have started reporting on FLW.	Countries with <b>40%</b> of the global population have quantified base year FLW and have started reporting on FLW.
	COMPANIES	<p><b>20%</b> of the world's 50 largest food companies have quantified base year FLW and have started measuring and reporting on FLW.</p> <p>Among those measuring and reporting, <b>half</b> are engaged with their suppliers to quantify the latter's FLW.</p>	<p><b>40%</b> of the world's 50 largest food companies have quantified base year FLW and have started measuring and reporting on FLW.</p> <p>Among those measuring and reporting, <b>half</b> are engaged with their suppliers to quantify the latter's FLW.</p>
ACT	GOVERNMENTS	Countries with <b>20%</b> of the global population are actively working at scale to reduce FLW. <sup>b</sup>	<p>Countries with <b>40%</b> of the global population are actively working at scale to reduce FLW.</p> <p><b>First</b> country halves its rate of FLW.</p>
	COMPANIES	<p><b>10%</b> of the world's 50 largest food companies have active FLW reduction programs.</p> <p>Among those taking action, <b>half</b> are engaged with their suppliers to reduce the latter's FLW.</p> <p>The <b>first</b> global company halves FLW in its own operations.</p>	<p><b>20%</b> of world's 50 largest food companies have active FLW reduction programs.</p> <p>Among those taking action, <b>half</b> are engaged with their suppliers to reduce the latter's FLW.</p> <p>The <b>first</b> global company halves FLW in its own operations and its supply chain.</p>
OVERALL PROGRESS <sup>c</sup>	<b>5% reduction</b> in FLW achieved globally		<b>10% reduction</b> in FLW achieved globally

**Notes:**

<sup>a</sup> FLW = food loss and waste.

<sup>b</sup> Evidence of working at scale could include the presence of nationwide voluntary agreements between government agencies and businesses, passage of public policies aimed at reducing FLW, increased investment in FLW reduction, consumer campaigns, and so on.

<sup>c</sup> Currently, there is no globally agreed-upon base year FLW quantification. Thus, it is not possible to measure overall progress against SDG Target 12.3 until the base year FLW levels have been quantified.

2022–2024

2025–2027

2028–2030

Countries with **60%** of the global population have quantified base year FLW and have started reporting on FLW.

Countries with **>95%** of the global population have quantified base year FLW and have started reporting on FLW.

**60%** of the world's 50 largest food companies have quantified base year FLW and have started measuring and reporting on FLW.

**>95%** of the world's 50 largest food companies have quantified base year FLW and have started measuring and reporting on FLW.

Among those measuring and reporting, **all** are working with their suppliers to reduce the latter's FLW.

Among those measuring and reporting, **all** are working with their suppliers to reduce the latter's FLW.

Countries with **60%** of the global population are actively working at scale to reduce FLW.

Countries with **>95%** of the global population are actively working at scale to reduce FLW.

**10** countries halve their rate of FLW.

**50** countries halve their rate of FLW.

**40%** of the world's 50 largest food companies have active FLW reduction programs.

**60%** of the world's 50 largest food companies have active FLW reduction programs.

Among those taking action, **half** are engaged with their suppliers to reduce the latter's FLW.

Among those taking action, **half** are engaged with their suppliers to reduce the latter's FLW.

**>95%** of the world's 50 largest food companies have active FLW reduction programs.

Among those taking action, **half** are engaged with their suppliers to reduce the latter's FLW.

**20% reduction**  
in FLW achieved globally

**30% reduction**  
in FLW achieved globally

**50% reduction**  
in FLW achieved globally

**Green.** There is sufficient progress to suggest that the sector is on track to meet or exceed the milestone within the time period.

**Yellow.** There is some progress toward meeting the milestone, but it is below the pace needed to meet the milestone within the time period.

**Red.** There is little progress toward meeting the milestone, or previous progress is backsliding.

### **ABOUT CHAMPIONS 12.3**

Champions 12.3 is a coalition of executives from governments, businesses, international organizations, research institutions, farmer groups, and civil society dedicated to inspiring ambition, mobilizing action, and accelerating progress toward achieving SDG Target 12.3 by 2030.

Members are senior executives of these institutions, including ministers, chief executive officers, and executive directors. Executives preside over institutions that have the ability to impact food loss and waste reduction at scale and that are dedicated to meeting Target 12.3.

Visit [www.champions123.org](http://www.champions123.org) for more information.
